

Question 3

Q.3.1)

The screenshot shows a SQL query editor window titled "SQLQuery1.sql - (lo...(SIMBA\simba (56)))". The query text is:

```
CREATE TABLE Author (  
    AuthorID int,  
    AuthorName varchar(300),  
    AuthorEmail varchar(300),  
  
);
```

The query is executed successfully. The status bar at the bottom shows "100 %", a "Messages" tab, and the message "Commands completed successfully." with a completion time of "2025-09-25T05:20:35.8551917+02:00".

Q.3.2)

```
SQLQuery2.sql - (lo...(SIMBA\simba (52))*  SQLQuery1.sql - (lo...(SIMBA\simba (56))*
CREATE TABLE FictionBook (
  BookID dec,
  BookTitle varchar (300),
  PublicationDate date
);
```

100 %

SQLQuery2.sql - (lo...(SIMBA\simba (52))* × SQLQuery1.sql - (lo...(SIMBA\simba (56))*

```
INSERT INTO FictionBook (BookID, BookTitle, PublicationDate)
VALUES (1, 'Into The Darkness', '2025-02-14');
```
